Building advice and consultation

Contact us at Gardiner Building Contractors today if you're looking for an experienced builder who is dedicated to providing the best construction services in Nelson.

The team from Gardiner Contractors are all dedicated to providing a stress free experience from concept to completion.

Our Story

Darryl Gardiner has been in the building industry for over 33 years. He completed his initial building apprenticeship with a well known local Builder and stayed with them for over 24 years. Whilst there, Darryl was the foreman of a number of projects, one of which was a large house built in Nelson which won the Supreme Award in New Zealand with Master Builders. In 2005 Darryl founded Gardiner Building contractors, and has been carrying out quality builds and renovations ever since.

Our Approach

The team from Gardiner Contractors are all dedicated to providing a stress free experience from concept to completion.

The client is kept fully informed and involved in the entire process, to ensure the finished product is to their complete satisfaction. As we are Registered Master Builders and Licensed Building Practitioners, you can be assured that we are fully-trained and qualified to undertake any construction work.

Renovation

To avoid the hassle of relocating to a new home, renovating your existing space offers a fantastic opportunity to improve the layout of your home, adding value and comfort for years to come. At Gardiner Building Contractors, we have carried out numerous home renovations Nelson wide for a number of valued clients.

Kitchen Renovations

One of the most popular improvements for our clients is to renovate their kitchen. This is the most important space within a home where most time is spent with family and friends. Having a kitchen designed to your requirements and lifestyle will add both value to your home and make it more enjoyable to live in. Having a new kitchen with updated appliances also helps to add considerable value, for those looking to sell their home; a new kitchen is one of the selling points for prospective buyers. Even simple upgrades like new countertops and cabinet doors can recoup 82.7 percent of the project's original cost upon selling.

Bathroom Renovations

Another popular improvement is to renovate an existing bathroom. Over time, preferences change, with more and more people wanting to replace their bath with a shower. Other improvements can include adding an en-suite to a bedroom or providing a WC to the downstairs. Both take-up small amount of space but can add value and convenience to an existing home. As a Nelson renovation company, our clients have praised our work and seen significant gain to the value of their home.

House Alterations

At Gardiner Building Contractors, we are able to carry out a number of improvements to your home from simple cosmetic paint jobs to complete redesign. These improvements are designed and built to your exact specifications and will help add value. We ensure your project is of little inconvenience to you, built to high standards and delivered both on time and within budget. Work with only the trusted building contractors for your renovation project.

Light Commercial

Are you looking to expand your business or relocate to new premises? At Gardiner Building Services, we help you design, construct or expand your light commercial build project. We are a Nelson's light commercial construction experts. Having completed a number of projects, our highly experienced team can assist you in designing, obtaining necessary approvals and constructing your project.

1

Efficient and flexible working spaces

Through our network of local & national contacts, we can help you obtain all the necessary approvals, both quickly and professionally. Depending on your requirements, we can help design efficient and flexible working spaces for your business, whether you are looking to expand an existing space or build an entire new space.

2

Best price and quality

As an experienced team, we help you achieve the best market price for the supply of materials and we deal with all the suppliers and contractors throughout the project. During construction, our team are able to identify, manage and resolve any unexpected issues quickly, minimising any effect on the project timeline. We ensure your project is not delayed and delivered to the highest standard.

3

Hassle-free process

As a business, we understand you want the project to cause as little interruption to the day to day running of your business as possible. We take the responsibility of the build off your hands, so you can focus on the running of your business.

4

From inception to completion

Gardiner Building Contractors can help deal with any light commercial construction project from inception to completion. We will bring our considerable expertise to the table and help you in realising your vision. Of course, our team will also endeavour to keep things under control until completion.

5

Top-notch performance

Here at Gardiner Building Contractors, we complement our efforts with the latest processes and equipment in the industry. Expect top-notch performance every time due to our expertise in using a wide variety of tools and processes. It's why we are registered Master Builders; we know how to do things well.

6

Testimonials

Paul and Karen Buschl

During alterations and extensions on our home in Redwood Valley, we were fortunate to have Gardiner Building Contractors do the job. This included all sub- contractors needed to complete the work. There was an extremely high standard of finish in all areas making our Home feel new again. The team was hard working, polite, and there was minimal disruption throughout the project which we appreciated. We both found Darryl very approachable and the entire team extremely professional. We are proud to recommend Darryl and his team to others and to show off the Outstanding job they have done to our home.

Evan and Karen Lane

Our relationship with Gardiner Building Contractors dates back to 2008 when they completed extensive additions and renovations to our dwelling in Hill St. under the direction of our architect Andrew Irving. Since then they have also built an outdoor living area incorporating fire and barbeque and more recently a swimming pool redevelopment. We find Daryl and his team to be very approachable, professional and well organised in their work who get the job done with minimal hassle. Their experience and attention to detail ensures a high standard of workmanship. We intend to continue to employ them on further projects

Richard Gill

I have known Darryl in a business sense for the last 11 year after joining PlaceMakers Nelson as an Account Manager which also coincided with Darryl going into business for himself. He had been a highly successful foreman for a large and well-respected building company where he was involved in some high profile projects. Darryl's honesty and integrity have always played an integral part of his business and is one of the key factors why he has such a good reputation in the Nelson region and gets a lot of repeat and referral work. I would have no hesitation in recommending Darryl and his team to potential clients looking to build as I have witnessed a very high standard of workmanship, effective management and planning skills all leading to an excellent end result.

David Willace

I have worked with Darryl on several jobs over the years. One of which he was the foreman on a very large project that we designed on 17 Bisley Avenue, Nelson. It was a complicated, highly detailed house and completed to a very high standard. This house won the Master Builders Supreme House of the Year Award that year. A very tight timeframe was established at the beginning of the project and despite large variations being added to the contract the original deadlines were met. In my opinion Darryl's leadership skills, goal setting, building skills and determination were outstanding and a major factor in the success of the project. The project required a large number of builders and sub contractors to be on the site. Darryl created a very united and happy team. We are always keen to have Darryl as foreman on any of our projects. He is very hardworking, sets very high standards for his team, communicates well with consultants and sub contractors and even has a sense of humour.
